EXTRAORDINARY INFORMATION

Budapest, 11 June 2015

Amendment of the investment loan agreement

PannErgy Plc hereby advises the actors of the capital markets that two of its subsidiaries, DD Energy Production and Service Ltd and Arrabona Geothermal Ltd have agreed on the amendment of the investment loan agreement made with Hungarian Export-Import Bank Plc (Eximbank) on 11 November 2014 and the increase of the funding limit.

With the agreement originally concluded on 11 November 2014 with Eximbank and now amended, DD Energy Ltd and Arrabona Geothermal Ltd have the option to use an increased amount of long-term investment funding limit, in a total value of nearly EUR 22 million. The increase of the funding limit has not affected the 10-year tenor, while the other material conditions of the agreement have not been changed, either. The furnished limit serves the financing of the Geothermal Project of Győr under construction.
