Long-term lease agreement for the utilization of the production property in Szombathely

On 29 May 2007, in the framework of a long-term lease agreement Pannonplast Műszaki Műanyagok Zrt. succeeded in utilizing its real-estate property in Szombathely formerly used for the manufacturing of technological plastics. The plant and administrative premises let out cover approximately 5,000 sq m. Production operations having been associated with the said property were terminated by Pannonplast Group in 2004, and since that time the real-estate property has been unutilized.
