

OTHER INFORMATION

Budapest, 29 September 2020

The district heating season has started in Miskolc

Pursuant to legislation, the heating season starts on 15 September and ends on 15 May of the following year. Continuous district heating supply starts on 15 October and ends on 15 April. Based on the Operating Agreement made with the communities of residents, service providers automatically start district heating services on 15 September in case the average outdoor temperature remains under 10°C for 1 day, or under 12°C for 3 consecutive days. The communities of residents may ask for deviation from the date of the automated startup of heating in case all the condominiums belonging to a specific district heating centre submit a written notice to that effect to the district heating service provider.

In line with the foregoing, the service provider in Miskolc, MIHŐ Miskolci Hőszolgáltató Kft. commenced the intermittent district heating services for the heating season of 2020/2021 as of Sunday. Additional up-to-date information is available at the website of the district heating service provider – www.miho.hu.
